

DYE TEST INFORMATION

Property owners selling their parcel are required to be in compliance with all dye testing ordinances and must complete and pass the test in order to be eligible for sale. It is required by **The Pennsylvania Department of Environmental Protection** in order to control overloading of the sanitary sewer system.

A dye test, typically performed by a plumber or inspector verifies if the gutters, driveway drains, yard drains, or other storm water collection devices on the property are connected to the correct sewer system and are in compliance with the local government regulation. The requirements, fees, and procedures vary by the property's location.
